Event Description

Announcement

Austin Water / Water Conservation will hold the 2013 - 15th annual WaterWise Irrigation Professional Seminar (WWIP) on February 21, 2013 at: Lady Bird Johnson Wildflower Center 4801 La Crosse Avenue, Austin, TX 78739

This event is sponsored by Austin Water and Co-Sponsored by Lower Colorado River Authority each year and presents topics related to licensed irrigators and others. Attendance at the seminar allows up to 8 hours of continuing education credits which is required by TCEQ for Irrigators category license renewal every 3 years.

This year, topics will focus on; Texas Water Development Board State Water Plan 2012 "The Effects of the on - going drought", Backflow Topics, Weather and Drought Outlook, LCRA Programs Update, Efficient Design and Pressure Control, Austin Water Conservation Code Revision Update, Computer Aided Design (CAD), and the new City of Austin, Commercial Facility Irrigation Inspection Program.

This seminar is reserved for licensed irrigation professionals. Not only does the seminar provide an opportunity for irrigators to obtain continuing education credits toward license renewal, it helps irrigators better serve Austin area customers. The registration fee for the 2013 seminar will be \$56.00 with lunch included. The registration process will be modified this year and registration capacity will be limited.
